

12V Magnetic Rail Lighting System

System Features:

- Innovative engineering concept.
- Simple installation and easy lamp replacement.
- Flexible lamp position: pop-in and free-move within the rail range.
- Multiple lamp sources: choice of Xenon, LED, Festoon, and MR11.
- LED Festoon lamps swivel ± 30 degrees.
- Choice of 60W or 150W transformer for Xenon and MR11, or 12W driver for LED.
- Up to 10' remote installation without voltage drop.
- Flexible jump cord for turn and extension.
- Excellent for under cabinet, above cabinet, over cabinet, and inside cabinet applications.
